EXPLAIN (OTHER)
Written warning issued following a discussion about shift scheduling.

EXPLAIN YOUR GRIEVANCE
On September 28, 2026, I was issued a written warning by my first level manager after I raised a question about how the new shift bid was being applied to my scheduled hours. I had asked for clarification in our team meeting and followed up in writing the same afternoon. No other representative on my team who raised the same question received any form of discipline. The warning references a performance concern that was never documented in my prior reviews, and I was not offered a union representative before the meeting moved into a disciplinary discussion.

SETTLEMENT EXPECTED
That the written warning be removed from my personnel file and expunged from all Company records, that all references to it be deleted from my employee profile, and that I be made whole for any pay, scheduling or benefit impact related to this action.

VIOLATION OF ARTICLE(S) OR PAST PRACTICE
Article 12 (Discipline), including the requirement of just cause and the right to union representation; Article 4 (Basis of Compensation); and past practice regarding the administration of shift bids at the Corpus Christi Call Center.
